Profile

I am a software engineer who believes in the power of simplicity and accuracy. Few things beat the feeling when well-designed parts fit together naturally, when the modelling is done correctly and the business logic code almost writes itself. Python is my primary language, though I am adaptable to others. I am a dedicated learner, frequently exploring new technologies through work and personal projects. I generally favor command-line interfaces and Linux environments over graphical interfaces.

Work Experience

TriOptima / OSTTRA

SEP 2018 –
JUN 2016 – SEP 2018

TEAM LEAD
SOFTWARE ENGINEER

`python` `typescript` `golang` `fastapi` `flask` `react` `nextjs` `mysql` `cassandra` `rabbitmq` `redis` `docker` `kubernetes` `git` `microservices` `ci/cd` `rest`

- Developed and maintained a web-based application that calculates various measures on OTC derivative contracts
- Managed a team of 5-8 developers
- Migrated the application to Docker and Kubernetes to run in a private cloud environment
- Improved the CI/CD pipeline which moved us from 1-2 deploys to production per month to 2-3 per day
- Introduced new technologies such as React, Next.js, fastapi
- Implemented on-call rotations for the developers
- Organised events such as Advent of Code and IGE day

FEO Media

OCT 2015 – JUN 2016

SOFTWARE ENGINEER

`python` `javascript` `webapp2` `angular` `react` `google app engine` `rest` `git`

- Developed the backend for the new mobile game Crozzles
- Maintained the existing backends, for example Quizkampen

Eniro

JUN 2014 – OCT 2015
DEC 2011 – JUN 2014

TECH LEAD
SOFTWARE ENGINEER (CONSULTANT THROUGH REDPILL LINPRO)

`php` `python` `javascript` `mysql` `activemq` `rest` `svn` `git` `ssh`

- Managed and developed the SugarCRM instance at Eniro
- Recruited and managed a team of 4 developers in Poland
- Responsible for the CRM system and the billing platform Aria
- Worked in a team spanning Sweden, Denmark, Norway and Poland

Lendo / Schibstedt

OCT 2011 – DEC 2011

SOFTWARE ENGINEER

`php` `mysql` `zend framework` `macos` `mercurial`

Developed the admin interface for lendo.se and suredo.se

Produktion 203

NOV 2010 – OCT 2011

SOFTWARE ENGINEER

`php` `javacript` `mysql` `codeigniter` `svn` `ssh` `linux`

Developed homepages for various clients

Education

KTH - Royal Institute of Technology

AUG 2005 – NOV 2010

B. SC. MECHANICAL ENGINEERING
Studied the Mechanical Engineering Master's programme but started working during year 4

Personal

I'm born and raised in Stockholm. Apart from tinkering with technology and spending time with my kids, in my free time I enjoy playing my guitar, woodworking, climbing, skiing, diving, kayaking, traveling, mountain biking, camping - in general, being outdoors. I am also a big sports fan.
